Bulletin No. 23

French K-12 survey now online

BURNABY – A French language version of the K-12 bargaining survey is now available online. CUPE members who work in K-12 have been completing the online survey in order to prioritize bargaining goals in this upcoming round.

Survey topics include rating the importance of benefits, current areas of the provincial collective agreement, and improvements to the existing collective agreement.

Clerical and administrative classifications are being asked additional questions to help bring work-related issues to light for a variety of clerical/administrative support occupations.

If you haven't completed the survey, here's how you get access to it:

English
